
Product Info

When it comes to choosing Marsh Buggies, Swamp Buggies, and Amphibious Equipment "THERE IS A BIG DIFFERENCE IN RELIABILITY, SAFETY, PERFORMANCE, AND MAINTENANCE":

Wetland Equipment Company strives to produce amphibious products that will exceed your requirements, and surpass expectations. Wetland amphibious products feature unique performance, safety, and longevity features not found in any complete equipment.

The terms Marsh Buggies, Swamp Buggies, or Amphibious Equipment, is sometimes used interchangeably worldwide, they are all amphibious, some more so than others, and have varying degrees of efficiency and safety. Wetland's amphibious equipment enjoys unmatched distinction in every aspect.

Wetland Equipment Co. specializes in the manufacturer of Superior Marsh Buggies, Swamp Buggies, and Amphibious Equipment. We manufacture our products in every shape, size, and material: Aluminum, Stainless Steel, Core 10, or plain carbon steel.

Our Products Include: Amphibious Excavators, Equipment Carriers, Personnel Carriers, Drill Rig Carriers, Pipe Laying Equipment Carriers, Drag Line Carrier's, Barge's, Accessory Attachments, and more. They are manufactured in all sizes to fit customer special needs, and satisfaction.

Listed below are the most common models we manufacturer. Every buggy we build can be modified to fit your needs. Winches, A/C and Heated cabs, lights, horns, engine monitor gauges, alarms, special tie downs, cranes, and more can be added to fit your needs and safety regulations.
